SUMMARY

React Front-End Developer with over one year of experience building responsive, scalable, and high-performance web applications. Proficient in ReactJS, Redux Toolkit, and modern UI libraries like Tailwind CSS and Bootstrap, with a focus on performance optimization and seamless user experience.

PROJECTS

Khelzam Exam Management System

- Built a comprehensive platform with 3 standalone components: a Student App, Admin Dashboard, and a REST API using React 19, Node.js, and MongoDB.
- Engineered a real-time integrity monitoring service that logs tab-switches and prevents duplicate attempts via device fingerprinting, ensuring 100% exam validity.
- Implemented secure JWT authentication with role-based permissions, protecting sensitive exam data and administrative management features.
- Reduced application load time by 40% through dynamic code splitting, lazy loading, and Gzip compression on the backend.

Electoo (AR E-Commerce App)

- Developed a full-featured e-commerce platform for electronics repair parts with multi-role access (Admin, Supplier, Buyer).
- Implemented secure authentication using REST APIs and Google OAuth, including document validation for suppliers.
- Built custom data visualization dashboards using Chart.js for real-time sales and order tracking.
- Integrated real-time communication via SignalR and an AI chatbot for automated product support.
- Technologies: ReactJS, Redux Toolkit, React Query, Tailwind CSS, SignalR, Axios, Chart.js.

Online Courses Academy

- Created a dynamic platform featuring exam systems, CV builders, and role-based dashboards.
- Technologies: ReactJS, Redux Toolkit, Tailwind CSS.
